TO ALL OUR VALUED CLIENTS IN MOZAMBIQUE

As you may have noticed A Shak (Pty) is in the process of changing the branding on their products.

This is in line with A Shak's marketing strategy, which was due to be introduced towards the end of the year. With the change in Mozambican legislation requiring all labelling of products in Portuguese, it was decided that the introduction of the new packaging in Mozambique be brought forward to coincide with these requirements.

As some of the labelling has yet to be finalised, these products will, in the meantime, have photocopied labels on the containers, which we assure you contains genuine A Shak product of the quality that we have always supplied.

On our website you will find a page dedicated to Mozambique, which will reflect photographs of the new labelling/packaging as and when they are finalised, so please visit the website and click on the Mozambican page.

As this exercise is extremely time consuming, we would appreciate your patience while we complete this task.

Your continued support is very much appreciated.
